## THE STATE OF NEW HAMPSHIRE.

---

*To the Inhabitants of the Town of Dunbarton, in the County of Merrimack in said State, qualified to vote in Town Affairs:*

You are hereby notified to meet at the Town House, in said Dunbarton, on Tuesday, the eighth day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.
3. To see what sum of money the town will vote to raise for repairs on the highways for the ensuing year.
4. To see what action the town will take in regard to the care of highways for the ensuing year.
5. To see if the town will vote to accept state aid.
6. To see how much money the town will vote to raise for Memorial Day.
7. To see what discount the town will vote to allow on all taxes paid on or before July 1, 1910.
8. To hear reports of agents and auditors or officers heretofore chosen and pass any vote relating thereto.

9. To transact any other business which may come before said meeting.

Given under our hands and seal, the seventeenth day of February, in the year of our Lord, nineteen hundred and ten.

NATT P. HAMMOND,  
HENRY S. WHIPPLE,

*Selectmen of Dunbarton.*

## PUBLIC LIBRARY.

---

### REPORT OF THE TRUSTEES.

*To the Citizens of Dunbarton:*

During the past year the library has been moved to its quarters in the new town hall, the best it has yet had.

Steel shelving has been provided for the books and the room comfortably furnished. To do this we have been obliged to draw somewhat on our funds, as the selectmen declined to bear the whole expense of the furnishings; they, however, contributed forty-five per cent. and the trustees the remainder.

The trustees wish the funds might be allowed to accumulate as a nucleus of a building fund, for we are sure our townspeople look forward to the time when our library shall have a home of its own.

No new books have been purchased; some have been given, notably a work in two volumes on the Government of England, by President Lowell, of Harvard, given by the Woman's Alliance of the Unitarian Church, Manchester.

In the early part of the year Miss Mabelle F. Kelley, who has served us efficiently for several years, resigned, and Mrs. Willis B. Dickey was elected librarian. Since she left town, Miss Ruth Emerson has been in charge.

We should be glad of a larger appropriation, feeling that it would be a great advantage to have money with which to purchase standard reference books. But more than anything else, we desire an interest in the library in every part of the town. The general feeling that the library is only a

plaything for leisure moments is fatal to its usefulness. No single factor of education can be compared to intelligent reading, and with the co-operation of the townspeople the library can do much to meet this need. We especially wish the teachers in our schools would familiarize themselves with the library and recommend it to their scholars. Any practical plan to extend the usefulness of the library will be welcomed by the trustees.

## REPORT OF SCHOOL BOARD.

---

In spite of the fact that the work of the last term has been greatly interrupted by the prevalence of whooping cough, we consider that the year, as a whole, has been a successful one. There has been excellent work done by the greater part of the pupils, and they show a general desire to do their best.

There have been two changes in text-books. Wentworth & Smith's Arithmetic having taken the place of the old Wentworth Arithmetic, and Davidson's Physiology being put in the place of Hutchinson's. Both changes seem to us decidedly in the line of improvement. There are still in use text-books that are out of date, especially the history which was good a quarter of a century ago, but history has been making rapidly since Barnes' History was first published, and the addenda to his history is very incomplete and unsatisfactory. There are new histories that are not only accurate and thoroughly reliable, but are written in a style that cannot fail to interest. We think one of these books should be placed in the schools during the coming year. We also very much need new wall maps. If they cannot be afforded for all the schools this year, we might supply the two most needy schools, and the other schools next year.

If the pupils should each one be supplied with his own drinking cup the danger from contagious diseases would be greatly lessened. The cost is trifling; five cents would supply the two most needy schools, and the other schools and there is at least one school in town where each child

has brought his own cup and would never think of using a dipper that is common property.

The appropriation for repairs last year was necessarily large, as so little had been done in the way of repairs for several years. It was none too large, however, and there should be more done this year. One hundred dollars wisely expended each year would prevent the school buildings from getting into such a run down condition as they were when we commenced repairs last year.

Again, we must report that the schools have been shortened more than is wise by the amount we have been obliged to pay for transportation, and yet there is complaint because we do not spend more in that way. If we yielded to all demands made upon us for transportation there would be very little wherewith to provide schools worth attending. Pupils who have to make some effort to get to school usually make the best use of the school privileges when there.
